A close-up, high-contrast photograph of a woman's face. She has light-colored eyes with dark, winged eyeliner and shimmering eyeshadow. Her lips are painted with a glossy, dark red lipstick. The skin appears smooth and is highlighted with a soft, warm glow. The lighting is dramatic, coming from the side, creating strong highlights and shadows that emphasize the texture of her skin and the intensity of her makeup.

VITAMIN C
SERUM

WITH 10% BURITI OIL
+ MICROENCAPSULATED
ACTIVATED VITAMIN C

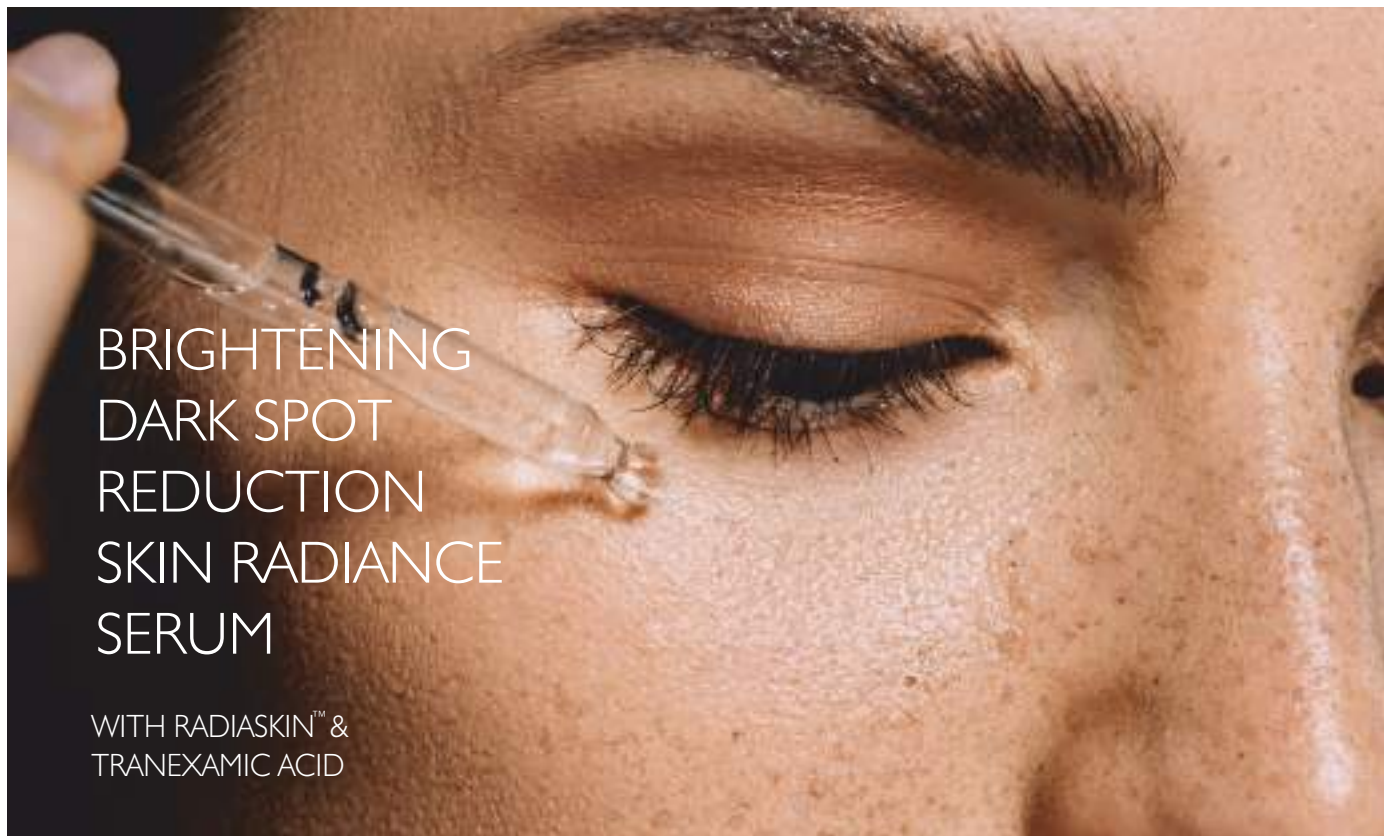

Pack Size: 30 ml

10% Melscreen Buriti – directly sourced from Brazil, is a highly potent Buriti Oil, also called Mauritia flexuosa fruit Oil, extracted from the nuts of Moriche Palm Tree that grows in Rain Forests of Brazilian Amazon.

- Beta-Carotene is one of the most potent antioxidants, and **Buriti Oil is one of the richest sources of beta-carotene known to mankind**. It helps protect the skin from damage that occurs from environmental stressors and even household cleaners that contain free radicals.
- It is rich in Essential Fatty Acids, and thus acts as one of the best moisturizing agents by penetrating the skin and hydrating the skin on cellular level making it look more smoother and supple.

5% Microencapsulated Ascorbyl Phosphate, is the **most stable form of Vitamin C**, in its microencapsulated form increases the skin penetration and bioavailability making it the **most effective form of Vitamin C**. Ascorbyl Phosphate is lighter than other forms of Vitamin C making it the best to penetrate the deepest to give longlasting effects.

- Exclusively formulated with ingredients developed and produced in Germany.
- Contains **Radiaskin™** - (Hydroxy) Phenoxy Propionic Acid - that is a new age anti-spot ingredient that effectively reduces dark spots and skin coloration - Aron - Toxic cleravalive of Hydroquinone.
- **Radianskin™** has shown to safely reduces melanogenesis with greater in vitro efficacy giving visible and measurable effect of reducing age spots on both the face and hands comparable with 1% **Radianskin™** vs. 2% kojic acid.
- Under various in vitro studies **Radianskin™** has shown to
 - Have a **greater depigmenting effect** than ascorbyl glucoside, kojic acid and arbutin, and equivalent efficacy to hydroquinone without cytotoxicity
 - Acts on melanogenesis by inhibiting the release of melanin by the melanocytes
 - Reduces age spots and the contrast between age spots and spotless areas after a 14 day use, **giving visibly even and brighter skin.**
- Enriched with tranexamic acid that is a proved effective and safe medication for the treatment of melasma and dark spot reduction.

Age Correction Ultra-Advanced Night Eye Repair For Line & Puffiness Reduction & Dark Circle Diminishing

- Powered by the Patented **MultiSal™ Technology**, which is a microsphere delivery system with an inner core containing lipophilic sub-micron spheres of varied sizes that encapsulate the active compound.
- The **MultiSal™ Dark Circle Eliminator** combines potent functional ingredients – Shea Butter that has been proved to reduce inflammation, combat skin thinning, and eliminate dull-greyish complexion, and Caffeine that is known to stimulate circulation and reduce puffiness – with the MultiSal™ technology that ensures that the functional ingredients are delivered where they are needed.

Pack Size: 15 ml

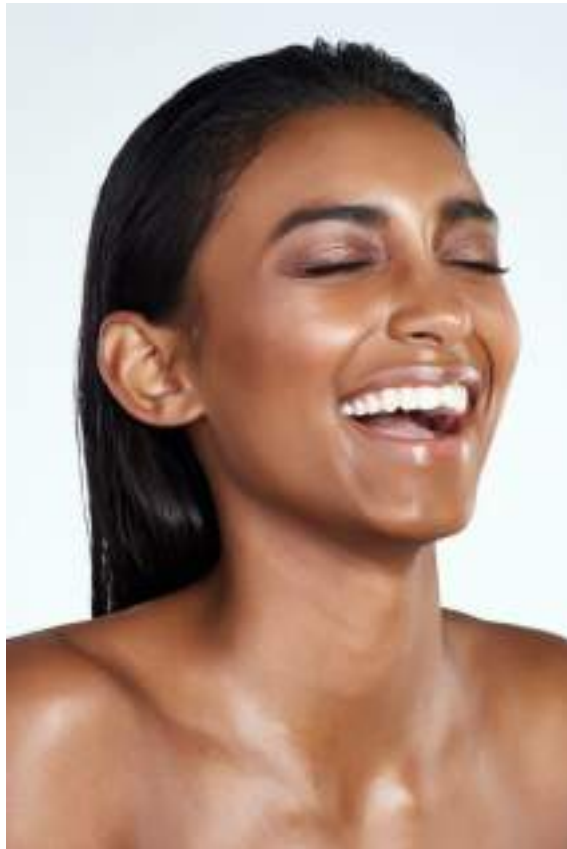

The **MultiSal™ MultiLayer** is an antiaging system that takes the **MultiSal™** a step further!

- The microspheres contain AHA & Lactic Acid encapsulated within the shell, which is released when the cream is rubbed on the skin. The released AHA & Lactic Acid exfoliates and reduces the pH of the skin. As the microspheres shell collapse the sub-micron spheres of varied sizes are released gradually.
- The one type of lipophilic sub-micron spheres contains a unique **blend of peptides** that stimulates collagen production in the deeper layers of the skin, and the other type of sub-micron spheres contains **active antioxidant compounds** that acts as highly effective brightening agent.
- **Encapsulated Vitamin C** ensure enhanced absorption and deliver the Vitamin C directly to the skin, where it will be most effective. Vitamin C as an antioxidant contributes toward the increase of collagen synthesis, which reduces wrinkles and fine lines.
- Low Molecular Weight **Hyaluronic Acid** with high water holding capacity ensure penetration into the deepest layers of the skin to ensure moisture retention and promote plumpness in and around the eye area.
